Endless variety of formed fasteners.

Wide range of nut capabilities.

Stampings, castings and assemblies.

For more than 40 years, Porteous Fastener Company has been your supplier of high quality bulk and packaged fasteners.

The PFC Mill Division has taken this part of "First Class Service" to the next level. In addition to the high volume quantities in the standard fasteners you use, we have the knowledge and sourcing capabilities to produce your specials. From the smallest of screws to chrome trailer hitches, the purchasing knowledge at PFC and the group of quality suppliers we've partnered with will fill your special item requirements.

All of PFC's partner factories are ISO 9001 and/or TS16949 registered. This means you can buy, and sell, with confidence. Our Asian staff routinely meets with our suppliers in Taiwan and Mainland China. These visits enable us to perform inspections, witness testing, and work with the factories to achieve quality products and on-time shipments. Our accredited lab in Taiwan routinely inspects and tests products from Mainland China and Taiwan prior to shipment.

The next time your **valued customer** sends you an off standard requirement or a special print item, send it to PFC. Our Mill Division will work diligently to bring you the highest quality products and services available from across the globe!
